Claims Handling Policy

Internal procedure for receiving, triaging, and settling household claims. | Document id: claims_handling_policy | Version 1.0 - August 2026

1. Policy statement

All household claims must be acknowledged within one business day of first notice of loss. A claims adjuster is assigned within three business days; property damage claims above \$25,000 additionally require a field inspection before any settlement offer. Claims may only be discussed with the primary policyholder, a named co-insured, or a household member holding documented authorization. Emergency mitigation costs (water extraction, board-up, temporary housing up to 14 nights) are pre-approved to a limit of \$5,000 without adjuster sign-off. Settlement offers require dual approval when the estimate exceeds the adjuster's authority limit of \$50,000. Fraud indicators - inconsistent loss dates, recent coverage increases, prior claim clustering - must be escalated to the Special Investigations Unit within 24 hours.

2. Scope

This policy applies to all household lines: home, contents, vehicle, and liability claims handled by SecureHome Insurance staff and appointed adjusters.

3. Records

Every claim contact, estimate, and decision is recorded against the claim file. Decisions that rely on an internal policy document must reference that document explicitly.

SecureHome Insurance - internal sample document generated for the IndyKite Agent Gateway demo. Not a real insurance product.
