Underwriting Guidelines

Risk acceptance rules for new household policies and endorsements. | Document id: underwriting_guidelines | Version 1.0 - August 2026

1. Policy statement

Standard household risks are single-family dwellings built after 1950 with updated electrical, plumbing, and roofing within the last 25 years. Dwellings valued above \$1,000,000, homes with commercial use, or properties with prior subsidence require referral to a senior underwriter. Teen drivers aged 15-17 may be added to a household auto endorsement only with a certified driver-education completion and a named-vehicle assignment; a good-student discount of up to 15% applies with a GPA of 3.0 or higher. Car-sharing arrangements with non-resident drivers must be recorded as named endorsements - informal lending of vehicles voids accident forgiveness. Premium quotes are valid for 30 days from issue.

2. Scope

These guidelines govern new business, renewals, and mid-term endorsements for household products sold by SecureHome Insurance.

3. Referrals

Any risk outside the standard acceptance envelope is referred, never declined at the desk. Referral turnaround is two business days.
